Browser window showing a web page for ENG.MAHA IBRAHIM SHEHAB. The page content includes:

- Objectives:** One of my most important goals is to become a senior specialist in software engineering, and I have a lot of experience in it.
- Educations:** I received my education when I was 3 years old. I received kindergarten, and it was a very beautiful stage, and I still remember it, and I loved going to school. After I turned seven years old, I joined primary school, and it was one of the most beautiful stages of my education. The teachers who were very beautiful, and all the teachers were very engaged and motivated. That I loved middle school, which was the beginning of the seriousness of my future life, and it was one of the stages. I also moved to secondary school, which was the most difficult stage because I had to learn many subjects. I was approaching the end of my secondary career, and I felt very happy about the achievements I have achieved in all levels of my education.
- My Courses:**
 - computer science
 - English language teaching course
 - course on teaching innovation and creativity
 - Artificial intelligence and entrepreneurship course
- My Certificates:**
 - certificate in a computer course
 - certificate in the English language course
 - certificate in Microsoft programming
 - certificate in creativity and innovation
 - certificate in Artificial intelligence and entrepreneurship
- My Awards:**
 - Award for the best middle school student
 - The first academic excellence award in the field of Technical Development
 - Award for participating in several competitions, including the Saudi National Day competitions
 - Award for being a leader
 - Positive Student Award
- My Projects:**
 - project
 - project
- Contact Info:**

The screenshot shows a web browser displaying 'PROJECT1' in a purple rounded rectangle. Below it, the 'Project Title' is 'Haramain High-Speed Railway'. The 'Project Description' states: 'During our experience with the Haramain High-Speed Railway website, we encountered several issues. Initially, we had difficulty finding alternative payment methods beyond what was provided. Additionally, we noticed that the website displayed booking times in a 24-hour format that may not be familiar to some users, so it could be helpful to allow users to choose their preferred time format. Finally, we observed that the website's performance suffered during peak hours as the increased traffic caused delays and made the site less reliable. The objective of our project is to provide an easy and effective way for users to use the haramain- railways website at their own pace, anytime and anywhere.' The 'Link Of The Project' is [railway.project](#). The VS Code editor on the left shows the HTML and CSS code for 'Project1.html' and 'Assignment1.css'.
